

JYOTI BARASKAR

Senior Fullstack Engineer | React · Next.js · Node.js · TypeScript · Cloud & DevOps · Core Web Vitals

Dubai, UAE | +971 523 790 733 | jyoti.baraskar123@gmail.com | [linkedin.com/in/jyoti-baraskar-61040890](https://www.linkedin.com/in/jyoti-baraskar-61040890) | jyotibaraskar-portfolio.vercel.app | github.com/magical-soul

PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with over 8 years of experience building high-performance web applications across, e-commerce, and enterprise sectors. Proven track record of scaling frontend systems and building secure backend APIs. Expert in React, Node.js, and cloud architectures. Successfully boosted website performance scores by 40% for millions of global users. Currently based in Dubai on a residence visa and available to start immediately

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS, Microfrontend Architecture, Design Systems

Performance: Core Web Vitals, Lighthouse, SSR/SSG, Lazy Loading, Code Splitting, Web Vitals API

Backend & Databases: Node.js, Express, REST APIs, GraphQL, SQL, MongoDB, WebSocket, JWT Auth

DevOps & Cloud: Docker, Kubernetes, CI/CD Pipelines, AWS (S3, Lambda, API Gateway), Vercel

Testing & UI: Jest, React Testing Library, Storybook, Cross-browser Testing, Accessibility (ARIA/WCAG)

Tools & DevOps: Git, CI/CD, Docker, Postman, Chrome DevTools, LaunchDarkly, Vercel, AWS

Practices: Agile/Scrum, A/B Testing, Feature Flags, Code Reviews, Mentoring

PROFESSIONAL EXPERIENCE

Freelance Full-stack Consultant — **Freelance**

Mar 2025 – Present

Dubai, UAE

- Designed and shipped AI-powered content generation platform using Next.js, Gemini API, SSR, and Vercel deployment with optimised Core Web Vitals
- Built full-stack applications with GraphQL APIs, Node.js/Express backend, MongoDB integration, and secure cloud deployment
- Applied AWS cloud and serverless concepts including API Gateway, Lambda, S3, CloudWatch, and Amazon Bedrock while building AI-integrated applications
- Continued professional upskilling in AI, cloud, and full-stack engineering through practical implementation projects and certifications

Senior Frontend Engineer — **Vestiaire Collective**

Jan 2021 – Feb 2025

Paris, France

- Improved Lighthouse performance score by 40% and reduced page load times by 20% through SSR optimisation, lazy loading, image optimisation, and Core Web Vitals tuning on a platform serving millions of users
- Architected scalable React and Next.js microfrontend architecture with SSR/SSG for a high-traffic marketplace operating across 6 international language markets
- Built and maintained a shared design system and Storybook component library — accelerating cross-team UI development and ensuring visual consistency across the platform
- Drove customer acquisition and user engagement through SEO-optimised pages, SME landing pages, and performance-focused frontend architecture — directly contributing to organic growth and conversion improvements
- Integrated REST APIs supporting orders, user account workflows, and platform features — reviewing API contracts with backend teams and providing technical input on system integration
- Implemented feature flags via LaunchDarkly enabling controlled rollouts, A/B testing, and safe experimentation across millions of users
- Mentored junior frontend engineers through code reviews, pair programming, and knowledge-sharing; presented 'Web Performance Optimisation' at Vestiaire Collective Web Meetups
- Collaborated with product, marketing, and analytics teams to implement user journey tracking, experimentation, and performance insights supporting data-driven business decisions

- Contributed to CI/CD pipelines, UAT validation, release coordination, and production monitoring ensuring zero-downtime deployments

Frontend Engineer — J.P. Morgan

Aug 2019 – Dec 2020

Mumbai, India

- Built real-time trading dashboards using Angular and WebSocket handling high-frequency live data updates with optimised rendering
- Developed dynamic data visualisations for large financial datasets, improving legibility and decision-making speed for trading teams
- Integrated REST APIs for real-time and historical market data in a high-stakes, low-latency environment
- Implemented state management and performance optimisations for data-heavy UIs including large grids and multi-panel dashboards
- Ensured responsive design, cross-browser compatibility, and smooth UX across complex financial tools

Frontend Developer — Capgemini

Apr 2018 – Mar 2019

Mumbai, India

- Delivered responsive React.js and Angular enterprise applications for multiple clients simultaneously — meeting tight delivery timelines while maintaining cross-browser compatibility, accessibility (WCAG), and clean component architecture
- Built a reusable React component library adopted across 3 client projects — reducing UI development time and ensuring consistent design patterns across teams
- Resolved critical production UI bugs within SLA windows through systematic debugging and root cause analysis, directly contributing to improved client satisfaction scores

Associate Engineer — Eaton

Jul 2015 – Apr 2018

Pune, India

- Built industrial monitoring and control dashboards using React.js integrating real-time and historical data from backend APIs
- Developed interactive UI modules and data visualisations for complex enterprise workflows across industrial facilities
- Improved frontend performance and UI responsiveness for complex data workflows; ensured production readiness and cross-browser compatibility

TECHNICAL PROJECTS

AI Content Creator Platform | Next.js · React · Gemini API · Vercel

Full-stack AI-powered content generation platform with SSR, responsive design, and optimised Core Web Vitals.

Live: ai-creator-platform-jojo.vercel.app

StackFlow | React · Node.js · Express · GraphQL · MongoDB

Full-stack application demonstrating end-to-end architecture including GraphQL API design, CORS handling, MongoDB integration, and secure backend deployment. Live: booking-api-event.vercel.app

CERTIFICATIONS

- AWS Cloud Practitioner Essentials — Amazon Web Services
- Claude AI Fundamentals (Claude 101) — Anthropic
- Google AI Essentials — Google

EDUCATION

B.Tech in Electronics Engineering — Bronze Medalist | CGPA: 9.3/10

Walchand College of Engineering, Sangli, India | 2011 – 2015

ACHIEVEMENTS & RECOGNITION

- Featured in 50InTech, Paris — recognised for contributions to women empowerment in technology
- Speaker — 'Web Performance Optimisation' at Vestiaire Collective Web Meetups, Paris
- Participant — Web Summit 2023, Lisbon, Portugal
- E-STAR Award — Eaton India Technologies (Engagement, Accountability, Learning)
- Technical Director — ELESA (Electronics Student Association), Walchand College of Engineering
